(i) The Committee has gone through the written reply of the department and during oral examination of the representatives of the Department it was intimated that the roads get damaged due to over loading of vehicles and that the budget for repair of patches/potholes is not often sufficient. The Committee Recommends that the roads leading to quarry zones be constructed with richer specifications so that these are not damaged early.

(ii) Further the Committee observed that the maintenance & upkeep of existing

infrastructure whether roads or buildings is as important as creating a new infrastructure. The Committee therefore recommends that out of the total annual budget allocated for repair/construction of roads,

a) 1st priority be given to special repair of roads as per road maintenance policy and

b) 2nd priority be given for filling of Pot Hole/Patches and

c) 3rd priority be given for construction of new roads as the State already have a good/adequate road network.

d) Conclusively out of Annual budget for repair of roads, top priority be given to special repair of roads and patch work/pothole repairs be carried out on the 2nd priority.

(iii) The Committee has also observed that the many roads get damaged even within defect liability period or immediately after the defect liability period is over and special repair on the road is not carried out by the department on the pretext that special repair on the road cannot be carried out as the road has not lived its life as per the Road Maintenance Policy. The Committee, therefore, strongly recommends that

(i) in case these Pot Hole/Patches have come even before defect liability period was over than reasons for such lapses needs to be investigated in detail and responsibility be fixed and appropriate penal action against defaulting contractor/departmental officers be initiated and a detailed action taken report be submitted to the Committee within a month

(ii) in cases where Pot Hole/patches have come after defect liability period, appropriate action for repair/filling of pot holes/patches be taken without any delay so that roads is kept motorable and public at large may not suffer unduly.

The Committee has gone through the written reply of the department and during oral examination of the representatives of the

Department it was observed that inspection of buildings was not being done periodically and the Committee, therefore, recommends that annual inspection of the all the Govt. buildings be carried out to assess the serviceability of the building and un-serviceable buildings, if any be declared unsafe/condemned to avoid any mishap and further the repair renovation of all Govt. Houses be taken up in a phased manner as per clause 26.5.1 of PWD Code and as per the budget provisions and a detailed action taken report be submitted to the Committee within a month.

The Committee further desired that the matter be taken up with the Forest Department for speedy clearance of NOC cases so as to facilitate the widening of the roads in time as per the schedule/requirement.</b></p> <p>(ii) During oral discussions ACS of Department has intimated that there was no planning wing.
